Travel Expense Mileage Chart

Travel reimbursement mileage allowance rates for Conference/Workshop and District Business are set by the Board of Education to equal the maximum allowed by the Internal Revenue Service.

The Internal Revenue Service has announced that the standard mileage rate will decrease from 56.5 cents to 56.0 cents effective January 1, 2014.

Attached is a revised round trip mileage chart to reflect this change.

BAKERSFIELD CITY SCHOOL DISTRICT MILEAGE CHART

Department of Fiscal Services

Round trip Includes 20 miles for Incidental

MATH BOWL 2014

Twenty-Eighth Annual Elementary Math Bowl

Chipman Junior High School
Wednesday, March 19, 2014
9:30 a.m. – 12:00 p.m.

Elementary and Middle Schools are invited to participate in the Twenty-Eighth Annual Bakersfield City School District Elementary Math Bowl. The Math Bowl offers an opportunity for students to sharpen their math skills.

Gold – 6th Grade (Middle and K-6 Schools)

Chavez	Mt. Vernon
College Heights	Nichols
Curran Middle	Owens Intermediate
Downtown	Pioneer
Eissler	Sequoia
Emerson	Sierra
Franklin	Stiern
Fremont	Thorner
Harding	Voorhies
Longfellow	Washington

Silver – 5th Grade (K-5 Schools)

Casa Loma	McKinley
Evergreen	Munsey
Frank West	Noble
Garza	Pauly
Harris	Penn
Hills	Roosevelt
Horace Mann	Wayside
Hort	Williams
Jefferson	

Each site competing in the Gold Division may send 1 to 14 students. Sixth graders may compete in one of the following events: Super Star (1 student), Fantastic Flash (1 student), Thinker (1 student), Dynamic Duo (2 student team), Power Relay (5 student team), and Team Round (4 students). In addition, each site may compete in the Traditional Relay by using 4 of the students who competed in the previous contests.

Each site competing in the Silver Division may send from 1 to 7 students. Fifth graders may compete in one of the following: Super Star (1 student), Dynamic Duo (2 student team), Team Round (4 students). In addition, each site may compete in the Traditional Relay by using 4 of the students who competed in the previous contests.

Please read the following description of the contests. An entry intent form, transportation information, and team assignment form are also included. Copies of the practice tests may be accessed on our web.

Principals or coaches with questions about the Math Bowl should contact Hilda Wright at 631-4777. The required forms may be faxed to (661) 324-3187.

**If your school plans to participate in the Math Bowl, please return the Entry Intent Form to:
Hilda Wright in Curriculum and Standards by Friday, January 31, 2014
The Team Assignment Form is due by Friday, February 21, 2014.**

MATH BOWL 2014

ELEMENTARY MATH BOWL – CONTEST INFORMATION

General Directions:

- ★ Each school in the Gold Division has a team of no more than 14 sixth grade students. The Silver Division has teams of no more than 7 fifth grade students.
PLEASE DO NOT BRING ALTERNATES.
- ★ Each school should send no more than 2 chaperones.
- ★ All tests will be taken in approximately 60 minutes.
- ★ Be sure all students have completed permission slips at the school prior to the contest day.
- ★ Each student should bring 2, sharpened, #2 pencils.
- ★ Calculators are only allowed in the Thinker contest and will be provided by the district.
- ★ All fractional answers must be in simplest possible form.
- ★ **SPECTATORS ARE NOT ALLOWED TO VIEW THE EVENTS. AT APPROXIMATELY 11:00 A.M. SPECTATORS MAY VIEW THE AWARDS ASSEMBLY IN THE CHIPMAN CAFETERIA.**

CONTEST DESCRIPTIONS

The Thinker – Gold Division

This contest is designed for your BEST problem solver. Each student will take a test consisting of 20 standards-based questions. ***These questions mirror the practice questions.*** This contest is NOT multiple-choice.

The Super Star – Gold and Silver Divisions

Students will take an individual written test of 47 standards-based multiple choice questions and 3 constructed response questions. Student answers will be marked on an answer sheet. ***These questions mirror the practice questions.***

The Fantastic Flash – Gold Division

Rapid-fire computation is a necessity for this competition. Fifty standards based multiple choice questions are asked two at a time. Students are given 90 seconds to complete two problems on a page and record their answers on a scantron. At the end of this 90 second period students will be instructed to turn the page, answer two new questions, and record their answers. This process will continue until all 50 questions have been answered. ***Students are not to turn pages back or forward, but work only on the problems on their current page. Any student who does not remain on the proper page will be warned once and then disqualified. All work is to be completed on the test (NO SCRATCH PAPER). These questions mirror the practice questions.***

MATH BOWL 2014

Team Round – Gold and Silver Divisions

The team round consists of teams of 4 students. Each team is given twenty standards-based questions. Each team turns in one common answer sheet and may work on the problems as they see fit. In other words, they may work on the questions together, in pairs or individually. This contest is NOT multiple-choice. ***These questions mirror the practice questions.***

Dynamic Duo – Gold and Silver Divisions

Two students work together on 47 standards-based multiple choice questions and 3 constructed response questions. Each student must work separately for the first half of the contest, with no talking allowed. During the second half, students may talk, check each other's work, and complete the remainder of the test together. Student answers will be marked on an answer sheet. ***These questions mirror the practice questions.***

Power Relay – Gold Division

The power relay consists of teams of 5 students competing in 16 different rounds (pages) consisting of multiple choice and constructed response questions. Each round contains 5 questions that may only be attempted once by any student. The 5-member team lines up in front of their designated desk with a button numbered 1 to 5 pinned to their shirts (buttons will be provided by the District). Each student will in turn run to the desk and answer his/her specific question. The student with button 1 always answers the 1st question on the page, the student with button 2 answers the 2nd question, and so on. All questions are standards-based and multiple choice. ***These questions mirror the practice questions.***

Traditional Relay – Gold and Silver Divisions

Each school's relay team consists of 4 students. The students must have participated in one of the earlier contests. The relay contains 4 standards-based problems. On a signal, the first team member will run a short distance to a desk. The student will sit down, solve a problem, write the answer on an answer card taped to the desk, run back to the starting line, and tag the second team member. The second team member then runs to the desk and solves his/her problem. The third and fourth team members follow the same procedure. If any problem(s) are incorrect, the judges will do nothing and each student must return in order to correct or leave his or her answer alone. The judges will not indicate which answers are incorrect. When all 4 questions are correct, the judge at the desk will wave his/her hands.

Poster Contest

Each team has the option to design and decorate a poster for the Math Bowl. The Poster must include your school name and must show your team's interpretation of this year's theme "Get to the Core." Poster requirements: Posters are to be NO LARGER than a standard size poster (22in x 28 in). Bring your poster with you on the day of the competition. DO NOT send your posters to Chipman Junior High School or to the district office in advance. At the end of the competition, please take your poster back to school with you. Any posters left at Chipman will be disposed of. We will give two awards for posters. The first award will be for the poster that is the most creative. The second award will be for the poster that best represents the theme.

MATH BOWL 2014

ELEMENTARY MATH BOWL ENTRY INTENT

_____ will send a math team to compete in the Annual Bakersfield City
School District Elementary Math Bowl on Wednesday, March 19, 2014.
